

Wear Tattoo

Whether we're somebody big or a shadow
Everyone has a right to express their creative side
Anywhere on their body—a picture of Madonna,
Resting near our heart, or words from an ancestor.
The whereabouts of your artistic placement
Adds to its emotional want—your own galleria.
Tobacco grey may be the color of choice, or a light
Teal to fill in parts of a full moonset.
Oblige imagination and make your body a fresco
Or a secret message of graffito.
